Lek woke up on a cold morning, ready for school. She got dressed and made her way downstairs to the kitchen. Mum was cooking breakfast and Baby was already up.

"Where's Luca?" Lek asked.

"He's in bed because he isn't feeling very well. He'll have to stay home from school today," replied Mum.

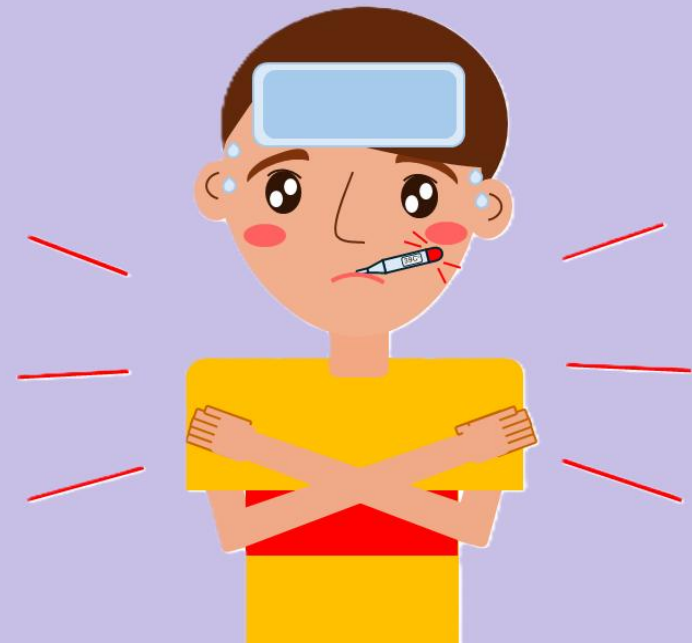

"Oh no," said Lek.

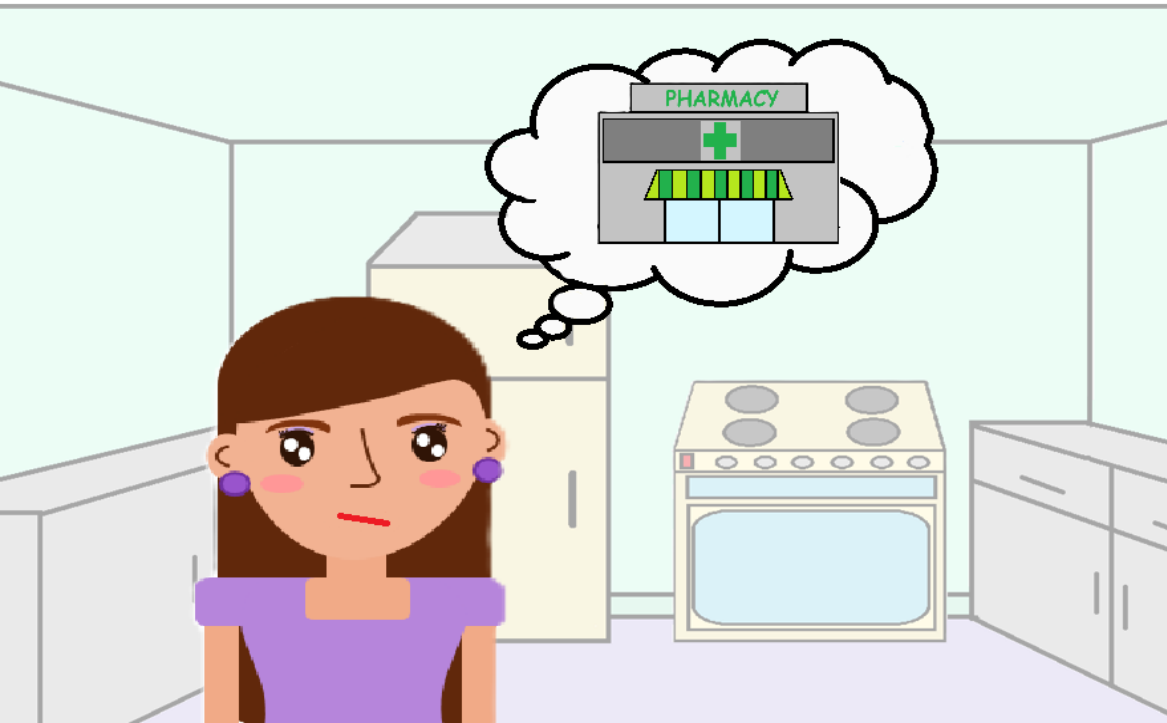

During her day at school Lek was worried about Luca. She couldn't wait to get home to see if he felt any better.

When she arrived home Lek rushed upstairs to Luca's bedroom to check on him. He didn't look well and had a bit of a fever.

"We must go to the pharmacy to buy some medicine for Luca. He has a cough and a fever," said Mum.

Mum and Lek arrived at the pharmacy and found a bottle of cough medicine.  
"This will help with Luca's cough," said Mum.

Next, they found some flu medicine to help with his fever.

Mum gave Luca his medicine as soon as they got home.

"Get a good night's sleep and you should feel better in the morning," said Mum.

That night Luca slept very well and was wrapped up nice and warm in his blanket.

Everyone hoped that he would feel better soon.

The next morning Lek got out of bed and went downstairs. Luca was in the kitchen eating his breakfast.

"How do you feel this morning?" asked Lek.

"I feel much better after taking some medicine and getting a good night's sleep," replied Luca

"Thanks everyone for taking care of me."

"That's what family is for," said Mum.
